## **Job Title: Manager/Senior Manager**

**Department: Data Analytics**

### **Job Description**

Avalere Health is seeking a consultant at the Manager or Senior Manager level to manage project teams and conduct quantitative analyses and research studies on a wide range of health care financing and delivery issues in a fast-paced environment. The successful candidate will possess a broad understanding of health policy and/or health care business and specific knowledge of the impact of Medicare payment on providers such as hospitals, nursing homes, ESRD facilities, home health agencies, etc. The ideal candidate will have a record of developing new ideas. The candidate must be able to multi-task, translate work products into meaningful guidance for clients, develop and deliver presentations, and write effectively. The candidate must be capable of both managing client relationships and leading less experienced staff in a team-oriented environment.

Applicants must have a strong health policy, economics, or business background, hold a Masters-level degree, and have a minimum of 5 years of relevant work experience.

The responsibilities of the open position include the following.

- Both participating in and leading project teams in the production of deliverables for a diverse set of clients
- Conducting analyses that quantify the impact of policy and/or market changes on clients' businesses or the federal budget
- Identifying business opportunities with new and existing clients
- Conceptualizing the scope of projects for clients, assembling a cross-functional team, and overseeing the team from project initiation through client delivery

### **Compensation**
